DISCUSSIONS:

Sale of Shore Road Allowance

There were no comments from Ministries, Agencies, Council or Applicants.

Mr. Nevrly advised that he would be against the proposal if one of the proponents were to be allowed to extend Podres Road to access their property. Mr. Nevrly stated that Podres Road fronting his property was narrow and not wide enough for a car to meet or pass let alone travel on. He cited the fact that he, himself, has to park their vehicles single file on the road. He stated that the road allowance would be in the lake, in addition, the terrain to build a road is not suitable.

After a lengthy debate, Mr. Nevrly was assured that there was no intention, on Council's part, to construct a road past his property. It appeared from the survey that there was a reserve on the end of the road preventing further construction until removed, as well, the area in question was too narrow to put a road in or bring the existing road up to any type of standard.
